Circle K Beverage Club - Frequently Asked Questions

What is the Circle K Beverage Club?

The Circle K Beverage Club rewards you for the drinks you already love: every 6th drink is free! Buy 5 Froster, Froster Swirl, Polar Pop, or hot beverage and get a coupon for a free Froster, Swirl, Polar Pop, or hot beverage, any size.

How do I join?

It's easy, and free! Just purchase any size Froster, Froster Swirl, Polar Pop, or hot beverage at a participating Circle K and enter your phone number at the cash register. That first purchase starts your progress.

Which drinks count?

Any size Froster, Froster Swirl, Polar Pop, or hot beverage purchased at a participating Circle K store.

How do I track my progress?

Download and sign up in the Circle K App! Your progress is tracked using the phone number you enter at the register, and you can watch your progress grow. Make sure the phone number on your app account matches the one you use at checkout.

How do I get my free drink?

After your 5th qualifying purchase, a reward for a free Froster, Froster Swirl, Polar Pop, or hot beverage will appear in your Circle K App. Show it at the register to redeem. You will have 30 days to redeem the free reward.

Do I need the Circle K App?

Yes, your free drink reward is delivered through the Circle K App, and it's the best way to track your progress. The app is free to download.

Is there a cost to join?

No! The Circle K Beverage Club is completely free. You only pay for the drinks you purchase, plus taxes and fees may apply.

Where is the promotion available?

The Circle K Beverage Club is available at participating Circle K stores in British Columbia, Alberta, Manitoba, Saskatchewan, Ontario, and Northwest Territories. Use the Store Locator to find the closest store near you.

What if I forget to enter my phone number at checkout?

Unfortunately we cannot retroactively apply progress to your account. Be sure to enter your phone number every time you purchase a qualifying drink, that's how your purchase gets

counted. Use the same phone number each time so all your purchases go toward the same reward.

My coupon isn't showing up in the app. What should I do?

First, double-check that the phone number on your Circle K App account matches the number you enter at the register, and that the app is updated to the latest version. Still stuck? Contact our customer support team (reply@circlekeasy.com) and we'll be happy to help.

Can I earn more than one free drink?

Yes, after you redeem your coupon, keep purchasing qualifying drinks and entering your phone number to start earning your next free beverage.

Where can I find the full terms?

See the Terms and Conditions for complete program details.
